Microencapsulated Vitamin C (20%) is a great weapon against:
- Deeply Non-Healing Wounds
- Burns
- Inflammations
- Protection of Radiation
- Irritations
- Ulcers
- Gum Infections
- Dental Caries
- Aging Spots
- Plaque
- Spots;
- Aging Signs such as:
- Wrinkles
- Fine Lines
- Puffiness
- Firmness
- Crows’ Feet.

Vitamin C is an antioxidant that is required for at least 300 metabolic functions in the body, including tissue growth and repair, adrenal gland function, and healthy gums. It also aids in the production of anti-stress hormones and interferon, an important immune system protein, and needed for the metabolism of folic acid, tyrosine, and phenylalanine.

Vitamin C protects against the harmful effects of pollution, helps to prevent cancer, protects against infection, and enhances immunity. It also may reduce levels of low-density lipoproteins (LDL, the so-called “bad cholesterol”), while increasing levels of high-density lipoproteins (HDL, or “good cholesterol”) as well as lowering high blood pressure and helping to prevent atherosclerosis.

Essential in the formation of collagen, vitamin C protects against abnormal blood clotting and bruising, may reduce the risk of cataract, and promotes the healing of wounds and burns.

Because the body cannot manufacture vitamin C, it must be obtained through the diet or in form supplements. Unfortunately, most of the vitamin C consumed in the diet is lost in urine. And it taken in large doses, stomach irritation can occur, possibly to leading to ulcers. Therefore it is very important using very effective topical natural Vitamin C (Ascorbic Acid in the microencapsulated form), which does not cause the severe side effects for stomach.

**Unique properties of Vitamin C:**

- Stimulate blood circulation and cell regeneration
- Increase anti-inflammatory activity
- Increase metabolism
- Stimulate dermal penetration of the active ingredients through the skin
- Activate dermal enzymes
- Work as an antioxidant agent in skin, protect human cell from radiation and free radical formation associated with the aging of the cell
- Enhance the collagen production in cell culture
- Stimulate fibroblasts and keratinocytes to produce collagen
- Increase cellular turnover, strengthens skin
- Stimulate anti-aging and anti-oxidant properties

Diminish appearance of broken capillaries

Stimulate as co-factor the production of collagen

Improve tone and texture

Promote faster healing due to quicker absorption and prolonged duration.

Vitamin C is extremely effective ingredients in pharmaceutical and beauty care industries. However, Vitamin C is instable since oxidation will occur with time. Therefore, in the most pharmaceutical and beauty care products instead of natural Vitamin C the esters of Vitamin C are used or polymer capsulated Vitamin C, that significantly decreases its the biological activity.

Natural Microencapsulated (by natural oils) Vitamin C is a stable natural product in the form of water-soluble emulsion. Microencapsulated Vitamin C in the form of stable emulsion provides the healing, moisturizing, protecting, softening, and soothing properties.

Natural Encapsulated Vitamin C contains 100% all natural surfactants and natural healing oils having high healing efficiency without adverse side effects.

After one and/or two days, you will see significant healing and clearing your face, neck, and body.

**Purpose**

Microencapsulated Vitamin C (20%) is a great weapon against: deeply non-healing wounds, burns, inflammations, irritations, ulcers, gum infections, aging spots, plaque spots, and the aging signs such as wrinkles, fine lines, puffiness, firmness, and crows’ feet. It penetrates in pores to control skin disorders and helps keep skin clear of new aging signs, helps prevent the development of new wrinkles, fine lines, puffiness, firmness, and crows’ feet.

**Directions**

Apply each morning and bedtime to cleansed skin. For various skin and health disorders apply two to three (as needed) times daily on affected areas.

**100% ALL NATURAL INGREDIENTS**

**Active Ingredient:**

Vitamin C (Ascorbic Acid in microencapsulated form) (20%)

**Other Natural Ingredients:**

- Blackcurrent (Ribes Nigrum) Seed Oil
- Borage (Borago officinalis) Seed Oil
- Safflower Oil
- Hazelnut (Corylus Avellana) Nut Oil
- Marticaria (Chamomilla Recutita) Nut Oil
- Vitamin E (d-Tocopherol)
